(Patent # 5938339)

APPLICATIONS:

- Food
- Pet Food
- Beverages
- Pharmaceutical
- Chemical

SUMITOMO BAKELITE
Poucher™ Flexible Bottle

**Inventors of the
Unique StandUp
POUCHER™
Flexible Bottle**

The premade POUCHER™ flexible bottle from SUMITOMO BAKELITE is a contoured shaped StandUp pouch, with a patented rib structure design for outstanding performance stability.

PROFILE® Packaging is the Exclusive Licensing Agent for this premade, environmentally friendly and energy conserving pouch technology.

The POUCHER™ can be used for food, beverages, personal healthcare and household chemicals and is a "partner" of the bottle in selected markets. The POUCHER™ can be filled at high speeds on premade pouch fill-seal **Laudenberg** machinery and is available with or without reclosable features. (Patented)

POUCHER™ applications

HM-300AH Spout Inserter

Hama spout inserters are ideal for companies who require a versatile machine; spout can be set in the left top corner, right top corner, or center of the pouch freely. The HAMA handles various types and sizes of pouches. Special custom machines can be manufactured to suit your company's needs and demands.
