

Liquid Stick Automation Packer

30 / 31

SPECIFICATION

- Application : All Liquid Materials
- Capacity : 15~40 × (Line) / min
- Filling Capa : 5~30mL
- Packing Lines : 3~6 Lines
- Film Materials : Heat material
- Product Size : (W) 16~32 , (L) 80~180
- Electric : 7KW, 220V/380V, 50/60Hz
- Air : 800L/min
- Dimension : 2,000(W) × 2,300(L) × 3,200(H)

FEATURES

- Ideal for high variety, small quantity products, and easy mechanical part access.
- Can produce a variety of products with parts change.
- Filling amount and production speed can be adjusted during operation with real-time monitoring.
- Film position can be adjusted horizontally and cutting position can be adjusted vertically during operation.
- Custom-built alignment device can be attached for **manual packaging** line and **automatic packaging** line configurations.
- Various interlocks (alarm/warning) are integrated to ensure convenience and safety.
 - Safety door sensor, target amount counter, eye mark detection, product detection sensor, film detection sensor
